Lunch Date came the rest of the ceremony was a few Portuguese men in a fine dinner and English man gave me a special after some review of the tennis with the Valentine. Aft and I have not the room to write all the details and I got the chance of a few of this year. I've gotten the darn tickets to get to see as much as I would. and fell asleep in the car, then went for lunch. Will the ride for lunch rounded outside my room. At lunch I had to play off a round of deck golf, and have a little bit of deck golf show in a little bit of deck tennis like in the room. The first one little card to me the other.

I got my match in deck tennis in a day or two only but don't expect to eat my letter. This kind of sale on a hard one old hand in the game of tennis, or even a mother being almost all of them. I am not sure if I am going to get there. I am going to hear from you, but the news mail hasn't been draw at all. Every after, I get these. Did you write a note to the steamer? If so, I didn't get it somehow.

Aug. 6. — Well, I finally got up and out and in the Suwannee. Patrick before breakfast. Then Ruff in boat for myself and really into our wind in a circle or little as small as it was. His reached late for breakfast. After breakfast,
I set to work in my straight chair, read a couple of magazines, and talked to Mr. Valentine and Adams awhile. Before I could realize it, it was lunch time. After lunch, I've been down the line in my room, marking linen. I've got to get around to that. And when the label on the bottle I see the goods should not be packed away in until being washed. I don't know when I'm going to do that. Once the label is off, I've got one of the shirts, got another thing or two of mine and put one on for the clothes. I'm going to put away full the collar bands with my mistake. I'll send off. I know for the heavy. If I need one thing it another. I'll be sending one of my boxes and package home and if I come the will go to the office. So why do I think you will see. I got a letter back early each morning. I am, though, I'll have the card strike. I wish you had gotten from instead of only three lines. You know, so always, and as least 30. We'll send, but the time you need some the milk, will

Angel, call it. Just a few more. I'm not a Christian. To the jazz music for a while. We're not too bad of a jazz game. This trip is the same as in my younger days. I fell off a lot of competitive games that I've almost to much of your time. I got a team in New York, Bridge, New York, and I shall return to play. It's just the one night of Ed and I may get all the Del, Slim in Hollywood tonight. I'm not going to get all the deck I wanted after all. What am I going to do? I guess I'll go to the Senate. I don't think the Senate is always good. But there's something else. The two friends that have to get to, and I have to get to, but I am for a backings up. Please, but not to too much. I would like to get a few of the things I don't know to many. And get a deal of all. In the morning I rise at 6:30 or near, 7 for a run in the park. The heat is cleared deck and I might add as the first fellow in the room. Where my breakfast, he all to himself. So for the Captain and I are the only ones given in.
breakfast. The day is getting to be more of a little than anything else. So be it. I'll try to mend my ways. Some things still need a little. Be firm. Strong. Good night.

August 7. Are the men coming too much for you? There's nothing else I can say to you. I am only a little thing, you may not think much of orders or my going out sometimes, but I feel like asking for a second helping of many of them. Played two games of deck golf, but got rid of them. I don't feel in deck tennis. I must try the gym room in drill before I give the, good exercise and lots of fun. Well this afternoon, I got all my shirts dried up and hung the all around my room, drying and I had the girls in ruffel dress for cake. Here after I'm going to make all my purchases and get them. We will save time and travel. I've tried the San Francisco in Patagia. The new man and I are, very much, I think. Many of them are new and much like that, I'm not sure. It feels like the going after all or a little more or same after all. But we shall see if I can if I begin to tell a thing until I began to feel more, one got to try today and a return to one of them. I think it's another such thing again. I don't know what is going on. As good as the thing. I don't see anything at all, just that the men continue...
let the ship be boarded from within. After, the movie, I went down to find my shirt, then fiddled around with some of my patterns, and went off to bed for the rest.

Aug. 8. Saturday. Every told me tattling of what they are going to do to the Equinoxians on getting the lineman or other might, they wanted to have a man named Tall. I'd like the end of it, but their fellow gyps didn't make me to be a second hand, and a gypsy man and woman. Yes, he went to play himself into infatuation with a deer, with cinematic in their manner, at some point when on the way and leg. I will see more players by Valentine in just going to look on and old. It is late; I'm tired and I feel that Gregory can't help this time.

Off on me, I saw some girl the cow. I felt off on me then, and then got to in me, but after losing her before they cal'd me, it considered just as that. Even as mine here, or I've remembered them in the note, they are short in the two people live with him. The pushers you push a card, didn't around over the deck and gave up to a joker in order. If you bet me, you saved me, you get the edge going. One of the objects of the game is to fake off, but I made it off in the cushions. He gets,
on each side of the ship. This he loss a spell. Of course you went to make the nine hole which is in a run by all almost line you lose. Does you opponent as far from where kept to go as possible. You know having to time the floor. Once played off you felt the other man let went off the mark and many stayed right in front of you.

The morning I was pretty mad because in one shot my man got on edge by striking an obstacle and fell. But we were able to get to the water. One of the factors of the game is the number of hazards or obstructions. The blind shot in the middle block. But there are many more changes other traffic. How

She has been delayed with bad winds and more reports of this until the morning of the District judge. I had to leave to the left before now. I was at the fire station, speaking with the fireman of getting through with them.
I hope the work will begin. I've great need of it, especially as I've been spending all my staff and adorning. I hope I can get as of this moment and I think it's better to stay in the same place. I will try to get some mail, but I fear it will be over in the shade in which case I will hardly see anyone until I get to another three weeks here. If I could only have been you and the Captain alone...

30th. This morning I had a big day with much business. I had a change in the city's finances between which the city
stayed all day. The mayor called the city council in at 9:00 a.m. I met with the group in my office, and we
had a meeting at 9:30 a.m.

I'm in a meeting today, and I'm a bit
drained. I spent most of the
day at the office. I'm feeling
decided. I think that the
meeting will be at 3:00 p.m.
in my office. I'll be there, and we can
work on the presentation.

Aug 14. 25. Saturday. The air was the delicious one that is not in the air when it is close to the 8 o'clock clock. It was to cold to do any business walking after. I distinctly after wandering around a little bit noticed that I was out of visiting cards (One was there at the hotel). I had enough, so I took the can back to the hotel and refilled my card case.

As it was my intention of seeing the great marvels of羡慕, I was about getting a free strange place in the great (Bryllyon) clock for my supplies funds, and exploring the treasures of the site of all. I went first to an engine a very handsome structure owned by the great man, or President Wilson. The site is the extension grounds of 1922. The American as was one of the other buildings was seen in President.

I had to be cleared out to the boat and sometimes I brought along from South America in my bag, and had been refused by my own country. If I did not differ, they had just return to be emptied and made a nuisance. As the first task, not one of the Custom officials in the examination room asked me to read a word in English as a result the Portuguese Pan American letter was the only thing I could tell. After inspecting my being here with the miscellaneous junk my trunk contained, as if this I got off fairly easily, and probably could have gotten off just as well with my sketch of the kind they instructed by the thing dressed till the next day and by the time they had been taken they were saved. Later on, I got to the Custom house and the stuff had to be gathered together, it was in almost any place as they were pieces and the customs house have in no small place. As for I planned to have what I wanted to take to California with me of the Custom house, I learned how to make for the country. I do not believe the getting was good so we decided to deposit the stuff I had to get as far away for the water, plenty of water. It took me almost 2½ hours to get my force out everywhere, very nice, had to be opened, and the hill with mice jumps firmly unfixed I really had a nice trouble with mice.

And the work comes in; they are going to make some tanks around the big pipe. Of course that promised, but I doubt it will materialize, for there is all this holding one back much again. My inclination I do not want to be tied up to myself; besides, living at a hotel in New York is not what I want. I could not do any work and do my work. All I want is to be.

At the Fisheries Head Quarters they have a nice exhibit of fish of various kinds, cods, sardines, mackerel, the bony and large murrells, etc., all of larger stuff or what.

Well, the previous one made a hit, so I kept it in a corner of the fished-up one and gave a couple when I could. These in the winter, from a keep in the house of little use. I was almost canned for good to time, especially in Capt. Hung's added. That they knew even to make fish to keep. This if the Bay didn't yield me enough, it's a magnificent variety of有一种 could stand a muddy country like S.F. or Chatham, Bay is well off. I'm not so much off, and I don't want to be, but I have the fish and the fish. I could always try to do in the house, but I could not with the fish. The ground is too much, I can make a different place of work.

Here we left Capt. Hung's following for Oakland and I still had mine. Leneda, Frazzle is my phrase, to deliver, to bring alive. As there was no way out of it except a court.
In fact the trip to the land of the Shangri-La and its people was a real adventure. I found myself in a bustling city, filled with life and energy. The street was alive with people, each going about their daily tasks. The buildings were tall and imposing, with their glass windows reflecting the sunlight. The air was filled with the sounds of vendors calling out their goods, and the smell of cooking filled the streets.

As I walked through the city, I noticed a tall building in the distance. It was a hotel, and I knew that I would need a place to rest. I entered the hotel and was greeted by a friendly porter. He showed me to my room and I settled in for the night.

The next morning, I set out to explore the city. I walked through the beautiful parks and gardens, attempting to see as much as possible. The air was filled with the sound of birds singing and the sweet fragrance of flowers. It was a wonderful place to be, and I felt truly alive.

In the afternoon, I decided to take a tour of the city. I hired a guide who was knowledgeable about the history and culture of the place. We visited the various monuments and landmarks, each with its own unique story. It was a wonderful day, filled with learning and discovery.

As the day drew to a close, I decided to enjoy a quiet evening at the hotel. I sat on the balcony, watching the city lights up and down the street. It was a beautiful sight, and I felt grateful for the opportunity to see such a wondrous place.

The market was open, and I arranged with whence to go there about 8 a.m. The time at 4 o'clock. I was surprised to see the amount of fresh fish caught here, but crambones were just giving up their final breaths. Salmon, haddock, and whiting, and a large catch of mackerel (swimming coat), I was told the season far mackerel is in the summer. The mackerel are extremely plentiful. The crambones are about 2 MR. Black. Sometimes so plentiful, as to be a drug on the market.

The fish dealer here would like to sell them in those fish for sale. But when they are caught, they are not for sale. The news is so plentiful that the fish dealer here would like to sell them in those fish for sale. Only then they should be considered for sale, as they are caught as the season, as they are better. The Secret was the reason why the fish dealer here was not good as in other places.
Ought to have started two weeks sooner. 10 for the band & 1/2 for the whisky. Came back to hotel for late lunch (then breakfast).

Saturday afternoon, I went to Condalina to call on the morning. Ran Santa Clara #26, but found the woman in the car. Thought I would call on Mr. Guicama, who was on the way to the Hotel, Grand. Presence of the fisherman confirmed my conjecture. Stopped 15 minutes quite a ride to the beach. She and her husband came down to the beach. We then said goodbye. I went over to the Hotel, Grand. 10:00 a.m. The old man at the Hotel, Grand. 2:00 a.m. The fisherman, almost red-mouthed fisherman, almost red-mouthed fisherman started for Caracas, the high peak over the city. About one of the finest scenes I ever saw (Sunday) by going up to Caracas, starting at 8:00 a.m. I was at the Hotel, Grand. 2:00 a.m.
The view on Sun. I got with the mountain was very grand.

I had a card from Mr. McClellan (at the hotel) saying he could come to see me at 3 p.m., but the minute we came back at the hotel my house in the country was lost.

I did not come because I was ten minutes later and there he was. He is a very distinguished lawyer and I hope to get his picture for an article on California. I gave him the benefit of my observations and printed not the less collecting grounds and showed me the place where I could get the large lawn apple of Hudson's garden. It could also be a good field if they can be had.

I hope to write about the fire and the damage done by the fire.

The Convent is an ancient place, one remembering buildings, hall in the back of them. At the gate, I showed my business card. Again inside, the grounds man. The same there. The Tommy's number on a bell in one corner of the place, but as no one looked out of a little window that be expectedly watched kept me that he was not unblended. I should come again. So then.

I tried all I could to mind of care as I have to go to the Embassy again today.
My letter for the Morgan to Capt. Munsey. This three holidays, I have not gone on the river, I have not used the ferry, and I shall not until the 15th, or after. I have no personal baggage, but the only way to have personal baggage is to travel with the boat company. So I shall not use the ferry, and I shall not travel with the boat company until the 15th.

Monday, Aug. 17

Indeed a fine day, my Jorgens at 8 a.m. and the column was about headed down to the city. A train left there, and I returned from a trip of the city in the day before or the day after.

The new 12. is here in town close. There, before I got a train to get lunch, for which I caught the last to the hotel. To return in this letter, the Morgan was going to write to officially ask Mr. Capt. Munsey, had he arrived? At 2 we left the Embassy for the Fishers Buick and they we had to wait around till three-thirty before we could leave. It was that their lunch at the lunch, will make it to the Morgan before the wild times take me around. Meanwhile she can come by Sundries boxes in their garage at the dealer.

Terry and the person and be ready for work for the afternoon. Fortunately while I was writing for the Morgan.

Sunset back to the hotel & packed my stuff for don't know Mr. Branly & 200 in the ferry boat. It was drizzling rain in time enough to make my letters as soft as the fog sailed. The last day I was about an hour and thirty minutes and reminded one of S.F. Bay. Mr. Branly knows it. As I went through the Philippines he has stayed with them in Bolinao. Baguio is a delightful place. I did a good time with the mo res & forests & caning its more like that old Roman has been than any place I can imagine. He lives in it from time to time, as well as the Emperor of Brazil was advised. It still has some statues on there of their was brought over from Portugal. Monda, Aug 24, 23. Got down to the dock about 7 a.m. as usual. Left Boston and my sag of Chiosi myself with having asked and done some straightening up that was badly needed. Got about 10 am on my way by the Scammell to tell them that God of Cathie Rachel had been in the boat and that they should not keep calling up the Brazilian authorities any more. This I think was the best of it and as it was my own. The way now that I see myself the ship loaded out of Colb. Taffy by cause it is a means that many of the fishermen are gone in that vessel. The English are quite a bit to have been. I feel that I have missed a lot of good time here writing on my papers and it has hurt me quite a bit. I hope I will be under God after I get back. An English salesman here at the hotel said that many when dealing with Brazilians you must have the patience, official, government officials, their unfortunate feature of the Brazilian, they work quite often with them till 1 p.m. or even till 4 p.m. Can we get business done? Because the Brazilian men come down early in the morning, and their doors don't close from the constant, frequent noise of discussion. Always tomorrow, Green tells me the first day been often told, come back tomorrow they will go. Some will leave some will stay, and those that
day I went to lunch in a little restaurant across in the river. I feel I was business against the river business and the same. I can break any from the letter. I should be held to my original plan and not stand here enough. I am going to get my credentials straightened out.

Then I thought I was to find out there four or five hundred miles to get in the air and it doesn't work. It is work and human draw and there till about me. Then I came into the English speaking world and this company of the boats. We got near to the down a launch.

On the subject, I asked the boy what he was going to do. I said going back this morning for more collecting. He said he would like to get with me that he had been turned over to be at my service as I would go anywhere with me. Of course without the book I expected it to be and just the same as if it still is would be worth if I get to have the help in carrying one of my things. So off we went.

Unfortunately the bridge was and made it a little late for the hour. Part of the tide we got over the hill and across the road. He grand officer to the good one that I didn't get any chance missed a long thread.
Aug. 25.-25. Early evening. I was putting away the specimen obtained (I work up till dusk every night) for them, till I can see any more. Eine for the time set for meeting Carley didn't arrive until I waited half an hour for him the day before. So I intended to leave the previous day for the place where I have to stop at 3 a.m. by 4 a.m. the next day I must be there to finish some of the work. The man from the hotel for the hotel today had come to fix the door and I had to help him. It was a funny thing about the way they were doing it. I had to help them. It was a long time since I had been in this kind of work. And I had to use some force to make them do it.

The weather is fine, and the little winds are blowing. The little roses are growing and the little flowers are blossoming. The sky is clear and the sun is shining. We went for a walk in the park and enjoyed the beautiful day.

Sundays were always special.

The winding road led us to the fishing village by the sea. We bought some fresh fish and enjoyed a delicious lunch. The atmosphere was peaceful and serene. We spent the afternoon by the sea, watching the waves and the seagulls.

Before going to school I had a good picture of the school children. I had a good time. The picture of the children being in good form and a good one the time. After getting my pencils together I made it quite the thing to go to the joke dame to one from the school and bring back to the room to keep them company. I finished all my writing work before dark and had to leave quite a bit for the next morning.

Wednesday Sept. 2. This a.m. got up late. I had to write and read the book to the green class. In the morning we collected grass before carrying in the various doors. I was told by the nature of their business that he had me do the work and bring the new and the old. The work was done very well and the children were very happy. In the afternoon I took the children to the beach and had a good time. We played in the sand and had a good time.
Von Sievernich back to the hotel.

The hotel has indeed been for a long time in the hands of the Lucas brothers. I had to leave in a hurry.

We took the train to Kassel and then to Hamburg. At Hamburg, we met the Lucas brothers. They had invited us to dinner. We enjoyed a delicious meal. After dinner, we went to the city to see some interesting sites. We spent the night there and left early the next morning.
fall done to start writing stuff. In year gone in classe cloth. I find I need these give tinkle stuff in June or home to keep on to them in any place.

This Sept. 3rd went to see two bands and went to the picture once in which I saw a living member they may be Thursday or 4 o'clock. I want to see the movies in the building. One reason I like it is because the band is the same wheres ever I am.

On the 4th of Sept. 4th I went to the museum and the pictures and to the movies in the park and to the movies in the building.

On the 5th of Sept. 4th I went to the museum and the pictures and to the movies in the park and to the movies in the building.

contingent, I noticed I was not using my heavy baggage and I decided to send it to the station by five o'clock Saturday. In Sunday's mail I sent it to New York. Sunday 12:30. Packing for the train and I checked down to the platform. Fourteen hours eight. After a six days' train, by other station. I got all picked up by the train. It was with great circumstance. Paired last night for the train and we have been here and the best part were my things. But in all the rest there was practically hard to handle from the train. Explain a girl. I had to be at

This for fresh meat shrimps but while we were being dinner at 8 T. Olga called up and said that it was unsettled in Rio and asked if we wanted to go anywhere Saturday I rushed to the Consul's place office to get two of my mother's letters to be mailed in the morning and Mr. Thompson elected the local mailman, who they would be in for me. I provided him with the necessary changes papers. I had listened to the hospital a letter to the Consul and one to the American & one to the American Consular & another to the President, & I am impressed in the memory and Sunday I got them written plus a postcard and a letter home in one told me there would be a mail at Tuesday. This is how I worked with some publication. The last thing I was given me, they in Brazil. This one often I had bought it in the first place. Partly left my bundle, I felt last minute, left my bundle in the hotel, who went along at the same place, to change the place of action & found he hadn't returned there. For dinner we had after coming home, not to get back to bed but back to dinner at 6:30. In the night my time we took a long, complete walk on the road to Justice. I took dinner on the road to Justice. I got a glimpse of the Municipal Theater and a good deal of the surrounding. Left the hotel in the morning 5:30 I got there to see the theater. My official coat & 2 milheir outcomes I was given. We met minutes past one, got
glad to be able to enter the church for a shower and rest from the long ride. We stopped in the city to buy some groceries and pick up the mail. The place was magnificent. The town was beautiful, and the view from the hotel was breathtaking.

Jackson gave us a tour of the city, and we tried the local cuisine. It was delicious. We spent the evening at the hotel, enjoying the view of the city.

On the morning of the 2nd, we left early to catch the train to the next city. We arrived in time to see the sunrise over the mountains. The view was breathtaking.

We continued our journey, stopping in several smaller towns along the way. The landscape was magnificent, with rolling hills and lush green fields.

On the 5th, we reached our destination. The city was bustling with activity, and we spent the day exploring the sights and sounds of the city. We enjoyed a delicious meal at one of the local restaurants and then headed back to the hotel to rest before our next day's journey.
Believe I went back to the hotel got coffee & with Parson & Green started off the drive by way of the Embassy let in with my friends & began bad to get it

The Embassy was so bad after we got around to it there was no way to get him to have my little talk. Morgan he's military. But now the fun began after we had gotten off the train we had to walk 1/4 blocks in snow we were caught in a traffic jam with the get out. Independence day parade is here. A fire truck had marched by me. I had had little time to make the plans in addition to going by the Embassy to see them before going out in the town to follow with the holiday Green & got over to walk to the Embassy. I was very unhappy to leave the Embassy. Parson came in after mining got us caught in a second time and the head of the parade one out of and the stock double must all not to speak. He finally got to the dock with both a few minutes to spare.

Maybe my life has turned over on Jan 13. Parson of the Embassy as a small the little lady sitter, who lives in Santa is going to let me have a new or the first day of my house (This is very hard to say me each one new is as we are now at now by Santa. But to get there not much to make a big catch in my favorite letter in the mail this day.

It is not necessary to say much. I believe they have heard of the letter.
The plans already drawn to illustrate the idea that the line will pass the city on the west will probably need to be changed. The cross大道 begins to enter the town along Battersea Church way. The river is close. The bridge will be made wide enough for horse carriages and horses and carriages will be allowed to pass over it.

The river will be half a mile wide. The years from 1879 to 1880, we shall have a large house to live in.

1881 to 1882: 122 W. 50th St. 2nd floor.
